

Plant and Beautification Committee Meeting

Jan.25, 2019

Members present: Linda Dowson, Anna Quilici, Dottie Goerke, Leroy Hake,, Carol Wambold, Richard Pluese, Ken Angotti, Betty Angotti, Allen Stieger, Chista Williams & Veronica Malcolm.

Board Liaison Present: Janet Herbert

Guests present: Susan Scovell, Maren Hardman

The meeting was called to order at 10:00 a.m. by Richard Pluese.

Richard presented photos and discussed the problems with the landscaping company destroying landscaping plants, not properly trimming, and other improper management of the landscape. After much discussion it was decided that the Committee would do a walk around and look at the various areas and then have a meeting with Landwise. After this meeting we would watch for improvement.

The next item discussed was the two islands on Players Place where the palms were removed but not replaced. The islands need new landscaping and stumps ground out also. Committee asked Janet to inquire with the board if they agreed with the committee proceeding in determining cost of this Special Project.

Committee discussed entrance planning and it was agreed that this would be put on hold until the entrance roadway planning was complete.

Decided to do a walk around before discussing Palms and general plantings.

Discussion on Christmas Decorations seemed to center on whose responsibility is for decorations and who's going to pay for it. Likewise, it was brought out that the Poinsettia tree required a lot of time and effort to water.

Discussed on the lack of a complete and full hedge line at the new bicycle area. No action taken.

For new business it was decided to have a Committee Members walk around Feb 1, 2019 at 10 AM.

Susan and Maren raised their concern about the appearance of the landscape between building 12 and the property line. This has been a long term problem area due to the shade and poor drainage. The Committee asked Janet to take this to the board for direction.

Next meeting Feb 8th at 2 PM

Meeting adjourned at 11:30 AM
